

New England Carpenters Training Fund Apprenticeship Program

The New England Carpenters Union and its partner Contractors through the New England Carpenters Training Fund provides

State-of-the-Art training to more than 18,000 journeymen carpenters, pile drivers, shop and millworkers, and floorcoverers working throughout New England.

We believe that well-trained carpenters are the most productive and provide the safest construction.

We offer more than 150 different courses covering all aspects of the carpentry trade, specialty crafts and safety training.

The New England Carpenters' Union Apprenticeship Program provides accepted applicants a 48 month scholarship to learn our trade.

Earn as you Learn: Apprentices earn a pro-rated salary, which increases as they

advance through the program, while receiving training to become Journeyman Carpenters with the New England Regional Council of Carpenters.

ON-THE-JOB TRAINING & CLASSROOM INSTRUCTION

Carpentry is a profession which historically has been handed down from one skilled craftsman to the next.

Apprentices complete On-the-Job-Training (OJT) "work experience" required to graduate the apprenticeship program and become a journeyman.

After completing the program you will be the best trained and well

rounded carpenter available for employment in this industry.

Apprentices also complete classroom and shop instruction at the New England Carpenters Training Center located on a 30 acre campus in Millbury, MA.

WENTWORTH We have a partnership with Wentworth Institute of Technology Institute of Technology:

Graduates of our Apprentice Program receive preferred admission, reduced tuition and college credits towards an Associates or Bachelors Degree in Construction Management .
